1. Introduction

SEPCO Industries is a key player in the Oil and Gas industry services in Mauritania and Senegal. Our activities are supported and managed by a set of highly experienced Oil and Gas professionals, collectively for the management team has more than 250 cumulative years of experience acquired as employees for reputable industry leaders: Schlumberger, Baker Hughes, Tullow Oil, Kosmos, etc….

We are very proud of our multiple experiences in the provision of Supply bases both in Mauritania and Senegal. We have provided PETRONAS with a supply base fully equipped during their chinguetti phase I campaign and we were the only Sub-Contractor to be awarded with a "FOCUSED Recognition". We provided also HALLIBURTON and TOTAL with supply bases, logistics support, qualified team of supervisors and operators, and fully integrated services covering all their port operations.

Among others, SEPCO Industries currently provides the following services:

1. Provision of supply bases
2. Provision of qualified labour
3. Mobile plant rental
4. Provision of rigging & lifting gear
5. CCU rental
6. Provision of chemical products
7. Waste management services
8. Tank cleaning services
9. Vessels & supply boats chartering and agency
10. Meet & greet services
11. Supply of goods
12. Pipe cutting, welding and sand blasting…
13. Customs clearance services
14. Provision of drilling fluids

2. Company experience

Key main references: Over the past years, we have been providing services to a satisfactory standard for operators and their subcontractors in the oil & gas industry.

Company	**Services**	**Comments**
Petronas Carigali PTY LTD Nouakchott Mauritania	SEPCO managed all PETRONAS's operations at the port: ▪ **Provision & Management of supply base** ▪ **Provision of qualified labour** ▪ **Mobile plant rental** ▪ **CCU rental** ▪ **Supply chemical products** ▪ **Waste management**	▪ SEPCO was awarded several Gold Awards and was the only local Sub-contractor to have received such awards. ▪ SEPCO was awarded FOCUSED RECOGNITION for its role in Chinguetti decommissioning Phase I.

Provision of Logistics Base and associated services
Contract N° : CFT-TEPMR-18-LOG-02
N ref : TEPM/2021/155

Nouakchott, le 30 juin 2021

On behalf of Total E&P Mauritania Block C9 B.V, please accept our great appreciation of the outstanding service delivered during the exploration campaign of Block C9 Offshore in MAURITANIA in 2018-2019.

The support provided by SEPCO Industries for the below scope of work had a very positive impact on our execution program.

- Integrated supply base services (Facilities, Equipment, Personnel)
- Jetty operations and associated services (Equipment including Cargo carrying units, Personnel, Water supply...)
- Shipping agency services and Port call assistance
- Waste management and Tank cleaning services

In recognition of the outstanding work, commitment, leadership and service quality with Zero NPT and no HSE anomaly, Total E&P was delighted to award an exceptional performance incentive to your company and its employees.

Wishing you all success in your future endeavors.

Yours faithfully

SEPCO MAURITANIA

SOCOGIM N°33 –BP 5336

Nouakchott – Mauritania

Accra, October 23 2014

Dear Cheikh Benhmeida,

I would like to take this opportunity to thank you and your team for the outstanding performance during the past Tullow Mauritania drilling campaign.

The help given by yourself and your team in order to mobilize and assemble the Liquid Mud Plant has been the key factor of the success of the MI SWACO Mauritania operations.

This delicate work has been made in the respect of the rules of the art and accident free despite the short period of time allowed.

You and your team always have delivered the requested services in due time regardless the difficulties encountered in a new operation.

Wishing you all the best in the future.

Faithfully Yours

François Couffy

Subject: Methanol Decanting Operation Finished

Good Morning Mr. Ahmedou,

At 0230 this morning we finished pumping off 240m3 of methanol. All of this vessel's cargo tanks are now empty, and we are standing by dockside waiting for your next instructions.

I'm very pleased with the professionaliam and efficiency of the SEPCO team in decanting all of the methanol safely. Nobody here, either on the vessel or shore-side, had experience pumping from a vessel back into ISO tanks. Running the ship's nitrogen gas hoses out to the ISO tanks to purge them before reventing methanol worked perfectly as planned. I appreciate the safety conscious work that Jonathan, Chebani, and the rest of the SEPCO team put in to make sure all methanol was decanted back into ISO tanks in a safe manner, that was a job well done.

Best Regards / Thank You,

Robert G Van Vechten – Master

Subject: Good bye NMC

Dear Cheikh, Mohamed,

We would like to express our deep thanks for the very good work carried out in these more than two years of continuous operations. It has been an intense period in which we have always counted with hands the strong support from Sepco-NMS and, in force of this, we have never experienced problems and we have never been left alone. When we have knocked at your door with a question, you have always come back to us with a solution.

Thanks to this very strong cooperation, in our humble opinion, we have always been able to express, together, a satisfactorily service for the client.

We would think this has been only the first step of a very long way to be run together, hopefully, in future working opportunities. We will be highly honored to be part of the team again.

May we take the opportunity to wish good health and prosperity to all of you and families.

Truly yours,

The BAMBINI Crew
